DETAILED ACTION

Reasons for Allowance

1. Claims 1-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 1 and 11, the prior art Becker fails to teach that the service platform collects caller-entered information from a caller and transfers the caller-entered information over the same call to a SCP. Becker teaches transferring caller entered information to SCP. It is not obvious to modify the prior art to add the features. Further, Becker does not suggest to add any service platform.

Regarding claims 1 and 11, Examiner's newly discovered reference Malik fails to teach that the service platform transfers the caller-entered information over the same call to a SCP and SCP routes the call to a destination processor. Malik teaches that the service platform transfers the caller-entered information over the second call to a SCP and SCP retrieves information from its database. It is not obvious to modify the prior art to add the two features. Further, Malik does not need to have a destination processor.

Any comments considered necessary by applicant must be submitted no later than the payment the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should clearly labeled "Comments on Statement of Reasons for Allowance."
